### IntelliSpense™ Manual Syringe Specifications

Premium polyethylene syringes for industrial use - designed to work in almost all industrial applications. Don't compromise QC standards with a "bargain" syringe. **End caps and tip caps are sold separately.**

| Syringe Size (CC) | A Total Length | B Outside Diameter | C Inside Diameter | D Tab Length | E Tab Width |
|-------------------|----------------|--------------------|-------------------|--------------|-------------|
| 1                 | 3 5/16"        | 1/4"               | 6/32"             | 3/4"         | 5/18"       |
| 3                 | 2 21/32"       | 7/8"               | 11/32"            | 7/8"         | 9/16"       |
| 5                 | 3"             | 17/32"             | 16/32"            | 1 3/32"      | 21/32"      |
| 10                | 3 3/4"         | 5/8"               | 9/16"             | 1 3/16"      | 3/4"        |
| 20                | 4 5/16"        | 13/16"             | 3/4"              | 1 7/16"      | 29/32"      |
| 30                | 5 7/8"         | 29/32"             | 7/8"              | 1 1/2"       | 1 1/16"     |
| 60                | 5 1/4"         | 1 7/32"            | 1 1/8"            | 2"           | 1 3/8"      |

**Please Note:** All Luer Slip and Luer Lock Syringes and needles use industry-standard Luer Nipples, which are 5/32" OD and 1/8" ID. Luer slip is a press fit; Luer Lock threads into the collar on the syringe. Luer Needles, Slip or Lock, will be functional with all IntelliSpense™ Manual, Pneumatic or Air Free Syringes.
